PREPARING FOR WORK IN THE CREATIVE MEDIA INDUSTRIES

Skills Support for Redundancy programme - Opportunity number HJN 51072.

We are currently running training and mentoring programmes which help unemployed people living in West London find jobs in media, arts and the creative industries.

The programme is suitable for people with an interest or past work history in ... web design, graphic design, digital marketing, music production and/or promotion, film and video production and/or marketing, editorial and Journalism, photography, the arts (theatre, dance, comedy, art, cinema, music etc), event management etc.

Programme content

Customers receive targeted help including ...

- Individual tailored One2One career advice mentoring from industry professionals
- Training in creating your own individual online CV portfolio website with an industry professional
- Travel costs to training sessions paid
- Free CV portfolio website hosting
- An accredited OCR qualification
- Access to Apple workstations with professional software
- Free office supplies and postage

Who is eligible?

Customers must be ...

- Aged over 18

- UK passport or proof of residency of at least 12 months
- Must have left work (redundancy or dismissal) within the last 6 months
- Must have been registered employment at some time in the last six months
- Must have been signing on for less than 6 months

Want to refer a customer?

We are running regular introductory open day sessions (Taster Days) at the Doughnut factory in Acton, West London, and we would like to ask you and your colleagues to help us recruit suitable customers for them. At these sessions customers can find out about the programmes, enrol, and get some free career and CV advice.

If you would like to book a customer onto a Taster Day please call Kobi and Roxy on 020 8691 1900, or email info@imthurricane.org. If you have questions, please call Roxy and Kobi or email, Mark Johnstone, markjohnstone@imthurricane.org. You can also find out more at our website ... www.imthurricane.org/courses/prepareworkmedia
